## Lifewave has you covered!

# Lifewave Y-Age System

## Worn together pack quite a punch!

Immune Support  
Detox

Organ Repair  
Balance Blood Sugar  
Respiratory Support

Inflammation  
Stress

# Lifewave Y-Age System

**Natural way to support the body through the winter season, or when you have a cold or flu.**

When the patches are placed on the body they use the body's infrared heat to activate the organic crystals in the patch.

This then facilitates the photo light therapy that goes back into the body.

The light then goes into the meridian pathways of the body to unblock any blockages and turn on healing processes.

The patches talk to the body like a radio and a receiver. Nothing goes into the body other than light.

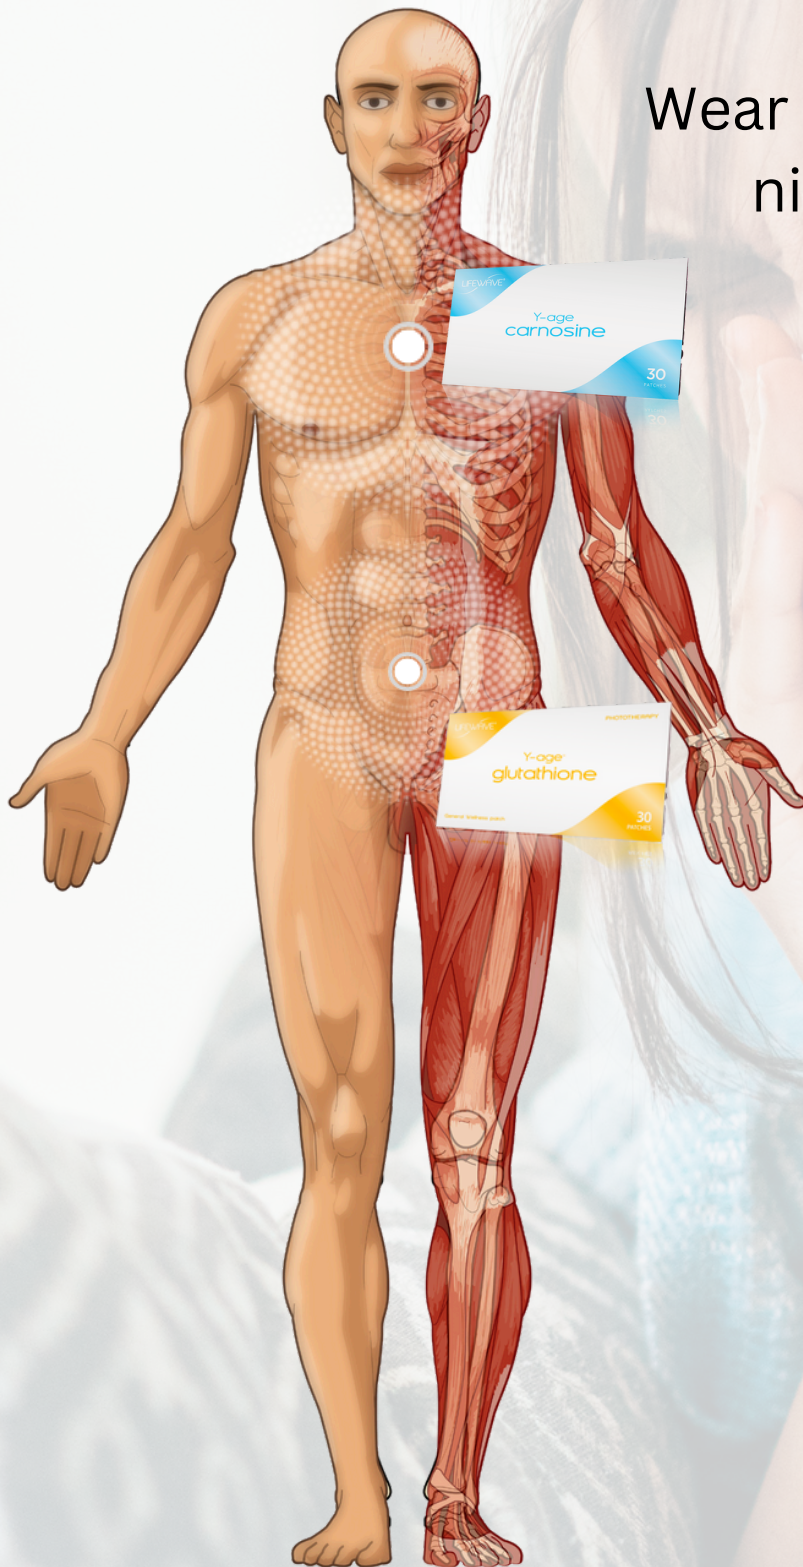

# Lifewave Y-Age System

**Natural way to support the body through the winter season, or when you have a cold or flu.**

Wear all three patches at night for 12 hours

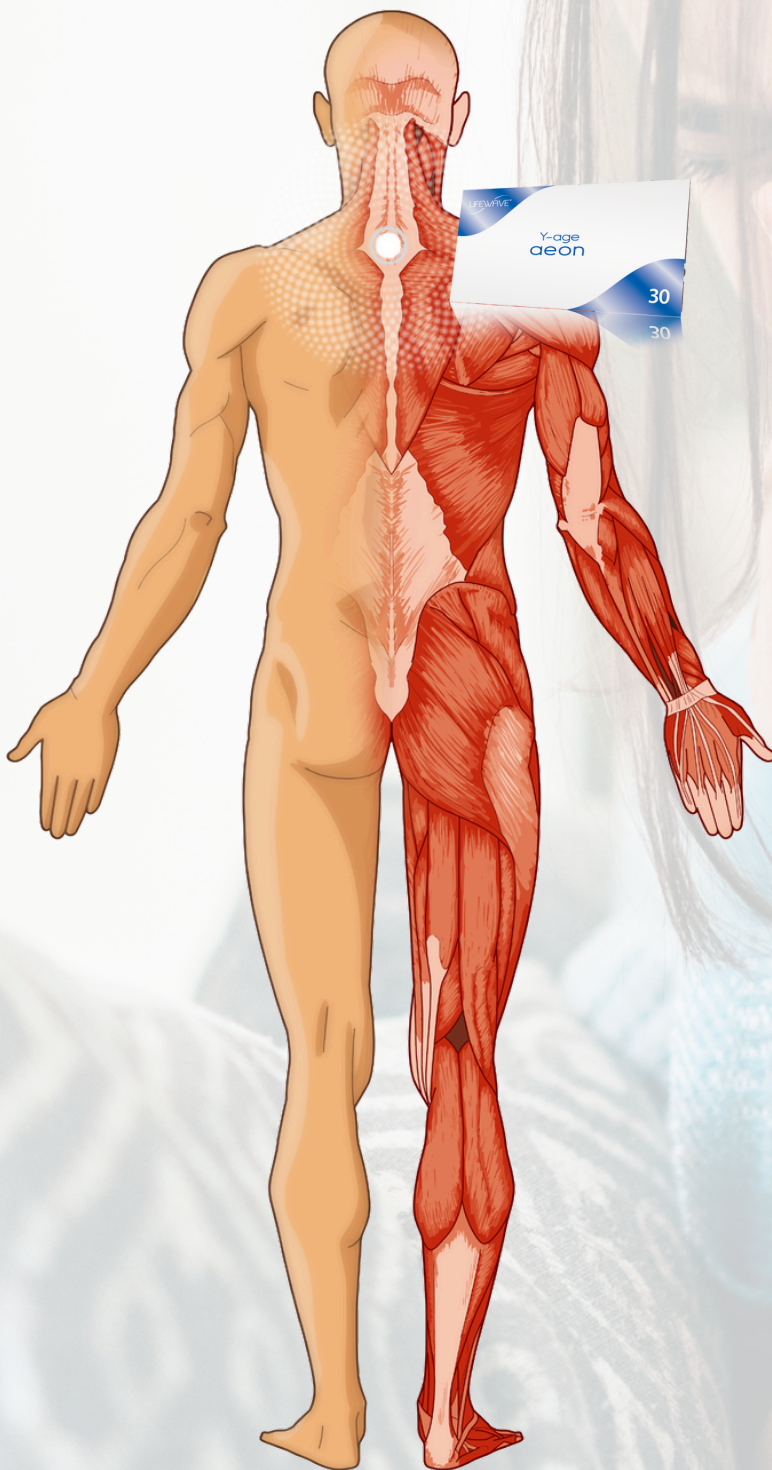

# Lifewave Y-Age System

Natural way to support the body through the winter season, or when you have a cold or flu.

*Homeostasis with this  
LifeWave Patches.*

## Testimonial:

I first felt a tickle in my throat that made me think I knew what was coming my way I quickly looked at our protocol booklet on our team website and saw this a protocol placement for colds and flu. I tried the combination and couldn't believe how much better I felt the next morning.

**-Mandy Vermaak**

I couldn't shake a cold I got while in Ireland, my wife was raving at how much better she was all around, so decided to give it a try. I was blown away by how I felt this morning.

Firstly the flu-like symptoms have disappeared to amazement, my body feels great this morning. But there is more than amazed me, I feel happier, more energy, and ready to take on the world which I haven't felt like for some time!

To be honest I was never a believer of these tiny little patches but after the Energy Enhancers changed my whole golf game for the better, I started wearing the X39 and started to really feel the effects of what it does, wearing the Y-AGE patches last night I am a true believer of this technology and refused to take the patches off this morning cause I felt so good! LOL
